

EASY-ACCESS AV FACEPLATE

When a projector is installed on the ceiling you need a way of plugging your laptop or other source equipment into it without having to clamber up on the table.

TABLE MOUNTED

In meeting rooms with a boardroom-style seating configuration the connectors need to be in the centre of the table for easy connection. The Techconnect Tilt mounts in the centre of the table and can be easily accessed by all users.

HEALTH-AND-SAFETY

Cables plugged into a wall faceplate present a trip risk when strewn across the room in an ugly mess. Installing the connectivity faceplate to the middle of the room offers a much tidier and safer solution for AV integrators.

RELIABLE

The motor is rated to work over a hundred-thousand times without failing, meaning years of reliable service.

BRUSHED ALUMINIUM

The Techconnect Tilt is constructed from brushed Aluminium on the top, and an enclosed steel chassis.

MODULAR

As part of the Techconnect solution, the Techconnect Tilt comes with a selection of modules including power, VGA, audio, and network connections. The modules can be changed to suit any application.

MOTORIZED TILT

Touch the touch-sensitive button on top and the motorized faceplate tilts up offering a high-quality finish to any installation. Safety sensors prevent the faceplate from opening if something is sitting on top of the lid – for example a cup of coffee. Likewise if an obstruction is sensed when it is closing it will not hurt your fingers.

ANY TABLE THICKNESS

Simply cut or drill a 220mm hole in any table - the unique clamping system allows installation to tables of varying thickness from 0-110mm. When installed and 'off', the Techconnect Tilt is almost completely flush with the table surface.

SPECIFICATIONS

PRODUCT DIMENSIONS

164 x 145 x 200 (side x side x height)

PACKAGED DIMENSIONS

262 x 262 x 275mm

PRODUCT WEIGHT: 3.7kg

PACKAGED WEIGHT: 5.1kg

COLOUR: Black

MOTOR CURRENT AND TORQUE

Going up: 0.7A, 30n
Going down: 0.45A, 20n

CUTOUT DIAMETER: 220-226mm

OUTER DIAMETER: 240mm

ACCESSORIES INCLUDED

- 1 x Euro IEC Power cable 1.8m long
- 1 x UK IEC Power cable 1.8m long
- 1 x Cutout Template
- 2 x Mounting Ears
- 1 x UK Power Module with IEC power cable
- 1 x EU Power Module with IEC power cable
- 2 x VGAF3.5MM Module
- 1 x RJ45 Ethernet Module
- 1 x Twin-RJ45 Module
- 1 x Blank Module

POWER SUPPLY

100-240V, Output 12VDC, 1000mA, 12W

PALLET QUANTITY: 96

WARRANTY: 2-year return to base

COMPLIANCES

RoHS, WEEE, CE, and CB compliant.

ORDER PART CODE

TC2-TILT [SAP:1584482]

ASK DAVE...
