

## MODULAR

As part of the Techconnect family of products the Techconnect Twist comes with a transmitter in the form of a standard USB-B module. Simply clip it into place on any Techconnect faceplate.

## UP TO 50M CABLE

The USB specification limits the length of a cable to 5 meters. Converting the signal to run over a twisted-pair cable - also known commonly as CAT5 or Ethernet - allows the signal to travel up to 50m.

## FLEXIBLE PLACEMENT

For some AV applications where an interactive whiteboard is involved the board needs to be some distance away from the PC. The only way to achieve this is to run the signal over CAT5 and send it over a network cable.

## RECEIVER MOUNTING OPTIONS

The receiver has a low-profile design to fit into SA4 trunking or Dado rail.

## SELF-POWERED

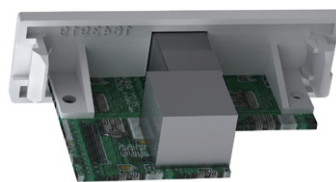

The Techconnect Twist transmitter is powered by USB so no additional power adaptors are required.

## WEBCAM-READY

As well as interactive whiteboard applications, the Techconnect Twist can be used for other USB devices which work on USB 1.1 such as printers and webcams.

## TRANSMITTER & RECEIVER INCLUDED

All parts are included in one box. Simply clip the transmitter module into the faceplate, and mount the receiver at the remote USB device.

## SPECIFICATIONS

### RECEIVER DIMENSIONS

95 x 24 x 21.2mm  
(length x width x height)

### PACKAGED DIMENSIONS

120 x 80 x 44mm

### PRODUCT WEIGHT

0.1kg per pair

### PACKAGED WEIGHT

0.1kg per pair

### USB SPECIFICATION

1.1

### CONSTRUCTION MATERIAL

ABS Plastic

### COLOUR

White

### PARTS INCLUDED

2 x Mounting Screws  
1 x Transmitter  
1 x Receiver

### OUTER CARTON QUANTITY

96

### WARRANTY

2-year return to base

### COMPLIANCES

RoHS, WEEE, CE, and CB compliant.

### ORDER PART CODE

TC2-USBTP [SAP:1795080]
